CONFIDENTIAL

Declass Review by
NGA.

CLHM-6 -

Re the contract for the Photo Chemical Solution Lab, Ross G. telephoned [] on 21 February and advised him that Headquarters had approved the contract as outlined in the [] letter of 13 February, subject to some minor modifications of the payment terms. The paper work is well along and [] should receive the contract within the next 10 days.

25X1

25X1

CLHM-7 -

ITEM I -

If possible we would like the whole T/O package at least by 1 April. If you can wrap it up by then, there is no need to forward pieces; otherwise we would like your recommendations for the job descriptions of the various supervisory and technical control personnel by 1 April.

ITEM II -

We would like your recommendations for the long-lead-time items of equipment at least by 1 April.

2. Per our conversations, what progress are you making towards having the pyrex sight glasses included in the Piping Specifications? Do you yet have an estimate of the additional cost for installation of the glasses?
